| GATEWAY     | Leh                               |
| BEST WINDOW | Jan-Feb only when officially open |

## ROUTE SCROLL

- Leh Winter Acclimatization
- Leh Acclimatization 2
- Chilling - River Entry
- Shingra Koma Sector
- Tibb Cave Sector
- Nerak Sector
- Return Chadar
- Chilling Exit
- Leh Buffer

DAY

01

# Leh Winter Acclimatization

## MORNING

Arrive or begin from Leh. Keep the first movements simple and establish the route rhythm toward Leh Winter Acclimatization.

## AFTERNOON

Focus on cold and altitude adaptation. Prioritize one or two strong experiences rather than racing through a checklist.

## EVENING

Settle around Leh Winter Acclimatization; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

## FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.

DAY

02

## Leh Acclimatization 2

### MORNING

Start early enough for a relaxed transition toward Leh Acclimatization 2. Keep transport flexible and protect daylight for the best landscapes or heritage stops.

### AFTERNOON

Focus on medical/gear checks and contingency. Prioritize one or two strong experiences rather than racing through a checklist.

### EVENING

Settle around Leh Acclimatization 2; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

### FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.

DAY

03

## Chilling - River Entry

### MORNING

Start early enough for a relaxed transition toward Chilling - River Entry. Keep transport flexible and protect daylight for the best landscapes or heritage stops.

### AFTERNOON

Focus on expedition launch and ice assessment. Prioritize one or two strong experiences rather than racing through a checklist.

### EVENING

Settle around Chilling - River Entry; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

### FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.

DAY

04

## Shingra Koma Sector

### MORNING

Start early enough for a relaxed transition toward Shingra Koma Sector. Keep transport flexible and protect daylight for the best landscapes or heritage stops.

### AFTERNOON

Focus on frozen-river travel and camp. Prioritize one or two strong experiences rather than racing through a checklist.

### EVENING

Settle around Shingra Koma Sector; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

### FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.

DAY

05

## Tibb Cave Sector → Nerak Sector

### MORNING

Start early enough for a relaxed transition toward Tibb Cave Sector. Keep transport flexible and protect daylight for the best landscapes or heritage stops.

### AFTERNOON

Focus on ice formations and winter canyon; waterfall/canyon objective when conditions permit. Prioritize one or two strong experiences rather than racing through a checklist.

### EVENING

Settle around Nerak Sector; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

### FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.

DAY

06

## Return Chadar

### MORNING

Start early enough for a relaxed transition toward Return Chadar. Keep transport flexible and protect daylight for the best landscapes or heritage stops.

### AFTERNOON

Focus on reverse route with dynamic ice. Prioritize one or two strong experiences rather than racing through a checklist.

### EVENING

Settle around Return Chadar; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

### FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.

DAY

07

## Chilling Exit

### MORNING

Start early enough for a relaxed transition toward Chilling Exit. Keep transport flexible and protect daylight for the best landscapes or heritage stops.

### AFTERNOON

Focus on road pickup and expedition finish. Prioritize one or two strong experiences rather than racing through a checklist.

### EVENING

Settle around Chilling Exit; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

### FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.

DAY

08

## Leh Buffer

### MORNING

Start early enough for a relaxed transition toward Leh Buffer. Keep transport flexible and protect daylight for the best landscapes or heritage stops.

### AFTERNOON

Focus on weather/road contingency and recovery. Prioritize one or two strong experiences rather than racing through a checklist.

### EVENING

Settle around Leh Buffer; choose a local meal, short sunset/market walk, then review the next day's weather, transport and opening conditions.

### FIELD INTEL

Extreme cold and unstable ice make this a specialist guided expedition. Official opening and on-ground ice assessment are mandatory.
